Expected 06/ 2026

WORK EXPERIENCE

Information Systems Engineer Intern

Raytheon

05/ 2025 – 08/ 2025

Andover, Massachusetts

- Administered and supported a large fleet of test systems, including account management, server maintenance, OS troubleshooting, and joining systems to the domain.
- Enforced cybersecurity and access controls through Active Directory, Group Policy, and hardening (STIG / SCAP) to meet RMF standards outlined in NIST SP 800-53.
- Installed and configured Linux on required systems following DoD STIGs, ensuring compliance with hardening/RMF standards.
- Collaborated with cross-functional teams to ensure secure, compliant, and reliable IT infrastructure for test data integrity and mission-critical test equipment.
- Provided infrastructure and endpoint support through RDP and Microsoft 365 tools, assisting with patching, backups, application upgrades, and field test readiness.

LEADERSHIP EXPERIENCE

Founding Father

Beta Theta Pi UCF

10/ 2023 – Current

Orlando, Florida

- Co-Founded the Beta Theta Pi Fraternity chapter at UCF.
- Advanced our organization's web presence through website development and management.
- Raised thousands of dollars for various charities through philanthropy efforts announced on our website.

Volunteer: Food Donation

Iglesia Adventista Los Peregrinos

02/ 2019 – 03/ 2022

Miami, Florida

- Led group discussions and activities to meet different community needs.
- Handed out food to the less fortunate, feeding 800 families.
- Organized the flow of traffic for food donation events, improving critical thinking.

PROJECT EXPERIENCE

JobCord: The Ultimate Employment Bot

01/ 2024 – 03/ 2024

- Developed a Discord bot using Discord's API to automate job search alerts based on user-defined criteria.
- Implemented real-time notifications to improve user engagement and streamline job discovery.
- Led a development team, gaining hands-on experience in leadership, and communication.
- Facilitated conflict resolution within the team to maintain collaboration and project momentum.

Networking Project

09/ 2025

- Designed and implemented a wired home network.
- Crimped and tested CAT6 Ethernet cables, configured switches, and ensuring reliable connectivity.
